November 1974 List #10

This tenth list features an interesting collection of inexpensive world coins by type and date. We have interspersed various pieces from our stock in order to add bredth to the offering. Due to a favorable purchase price, we have offered all the items in the collection at levels below normal retail: many are priced at our usual buying prices for similar items. Hopefully this will provide our collector friends with a rare opportunity to add items at significant savings.
